03 Supplied until depletion
- Fornibile fino ad esaurimento delle scorte
- Fourni jusqu'à épuisement du stock
- Lieferbar solange vorrat reicht
- Suministrado hasta el stock termina

1114 Supplied with heat conducting silicone grease capsule
- Fornito con capsula di grasso termico al silicone
- Fourni avec capsule contenant graisse termique au silicone
- Geliefert mit Thermo-Silikonfettkapsel
- Suministrado con capsula de grasa termica de silicona

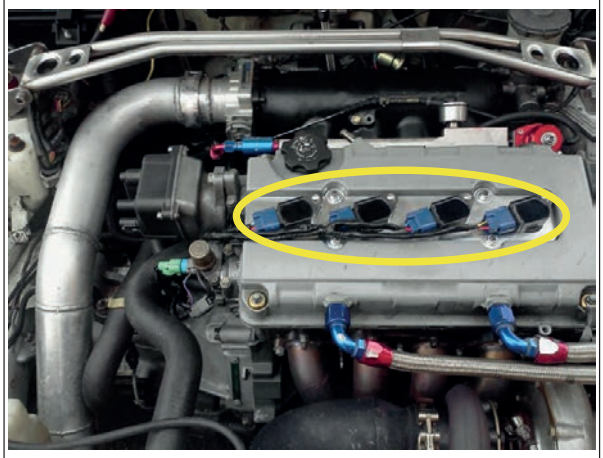
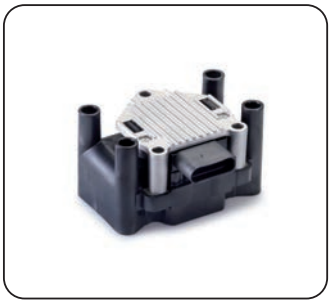
9.6XXX/9.8XXX IGNITION COILS





The ignition coils are transformers that are able to provide high voltage pulses. The purpose of these pulses is to generate a spark (arc) between the electrodes of the spark plugs on the internal combustion engine that is of sufficient intensity and duration to start the internal combustion of the air-fuel mixture successfully.

The main causes of failure of the product are:

- short circuit due to overheating
- insufficient power supply
- cable breakage
- low battery
- mechanical, electrical and chemical stress
- humidity

Signs of malfunctions:

- failure to start the engine
- problems of acceleration and power loss
- emergency operation of the control unit
- the engine control light comes on
- NOX emissions
- damage to the catalytic converter

The ignition coils are designed and built to withstand critical mounting conditions in the engine compartment. In particular they must meet the following requirements:

- operating temperature:
  - from -40 ° C to + 125 ° C for devices mounted on the head and motor (typically, Pencil Coil); the parts in contact with the candle must withstand 180 ° C.

The coils are subjected to rigorous qualification and durability tests to determine if the product is suitable for being built and sold:

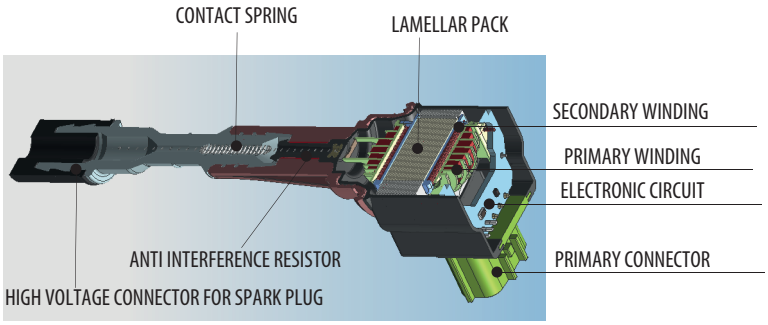
- Electromagnetic immunity test
- Proof of resistance to rapid temperature cycles
- Free discharge dielectric strength test
- Duration test
- Vibration resistance test

Pass these tests and allow the approval to produce during assembly the product undergoes strict control cycles which provide **100% testing**.

marketing@facet.it

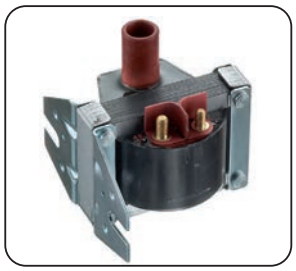
Structural components and operating principles

The main elements of construction of a modern ignition coil are:
- primary electrical circuit (copper wire wound around the primary iron core)
- secondary electrical circuit (copper wire wound around the secondary iron core)
- the magnetic circuit (pack)
- the electronic circuit
- the case (containing all the other elements coated in epoxy resin)
- various elements (incorporated only in some models): the interference suppressor, the high voltage diode, the electronic power switch, etc. The primary winding is piloted by the electronic power switch until it reaches the required current. The moment the current is switched off, a high voltage, typically between 20 and 30 kV, is generated on the secondary output, to ensure ignition of the spark. Since the high voltage is generated by releasing the induction energy stored by the primary inductance, these ignition systems are also called "inductive discharge".



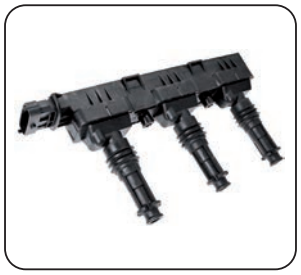
• Mechanical distribution coils:

These are individual coils and the high voltage is "distributed" to the spark plugs through special H.V. cables (abbreviation for High Voltage), by a rotor fitted on the distributor under the "cap". In mechanical distribution ignition systems, the high voltage supplied by the coil is transferred by special high voltage cables and "distributed" to the spark plugs by means of a "commutator rotor" under the distributor "cap", moved by the engine shaft. After a few micro-seconds, when the high voltage exceeds about 15 kV (as an absolute value), the spark is ignited between the electrodes of the spark plug.



• Wasted spark coil (second generation):

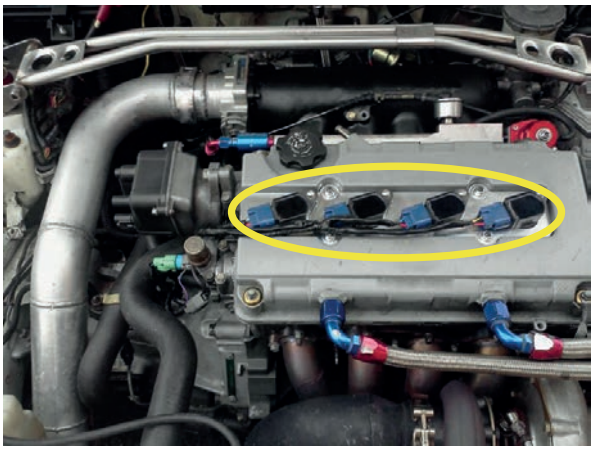
This type of coil is called wasted spark because during the compression stroke there is a normal ignition spark, but during the exhaust stroke, when the gases have different electrical characteristics before and after combustion, there is a spark of lower intensity and therefore a small waste of energy.

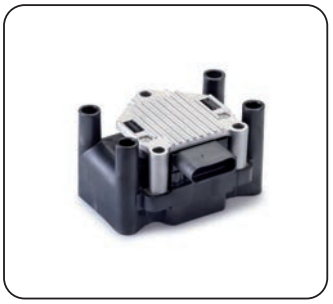


• Direct ignition coil (third generation):

The negative output on the secondary winding is connected directly to a single spark plug, while the other end is connected to an earthing point through a low voltage connection, or to the positive terminal of the primary winding (+ battery) inside the coil. There is therefore a coil for each spark plug.

9.6XXX/9.8XXX BOBINE DI ACCENSIONE





Le bobine d'accensione consentono di accumulare una carica nel sistema elettrico a bassa tensione del veicolo, immagazzinata e fatta scoppiare con una scintilla elettrica prodotta dalla candela per fare accendere in modo ottimale la miscela aria/carburante in modo che si verifichi la combustione completa nei motori a scoppio.

Principali cause malfunzionamento:
- corto circuito per surriscaldamento
- alimentazione insufficiente
- rottura cavo
- batteria scarica
- stress meccanici, elettrici e chimici
- umidità

Effetti malfunzionamento:
- mancato avviamento del motore
- problemi di accelerazione e calo di potenza
- funzionamento di emergenza della centralina
- accensione della spia di controllo motore
- emissioni NOX
- danni al convertitore catalitico

Le bobine di accensione sono progettate e costruite per sopportare le condizioni critiche di montaggio nel vano motore. In particolare devono soddisfare i seguenti requisiti:
- temperatura di funzionamento:
    - da - 40°C a + 125°C per i dispositivi montati sulla testa del motore (tipicamente, Pencil Coil); le parti a contatto con la candela devono resistere a 180°C.

Le bobine sono sottoposte a **rigorose prove di qualificazione e di durata** per stabilire se il prodotto è idoneo per essere costruito e venduto:
- Prova di immunità elettromagnetica
- Prova di resistenza ai cicli rapidi di temperatura
- Prova di rigidità dielettrica a scarica libera
- Prova di durata
- Prova di resistenza alle vibrazioni

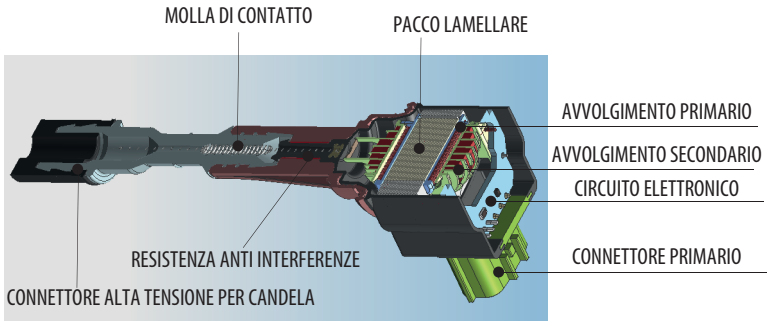
Superate tali prove e concesso il benestare a produrre, durante l'assemblaggio il prodotto viene sottoposto a severi cicli di controllo che prevedono il **collaudo al 100%**.

marketing@facet.it

Elementi costruttivi e principio di funzionamento

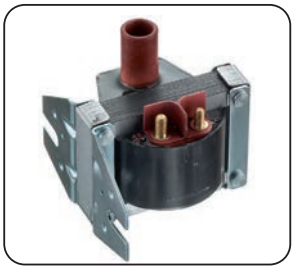
Gli elementi costruttivi principali di una bobina moderna sono:
- circuito elettrico primario (filo di rame avvolto sul rocchetto primario)
- circuito elettrico secondario (filo di rame avvolto sul rocchetto secondario)
- il circuito magnetico (pacco lamellare)
- circuito elettronico
- il vassoio (contenente gli altri elementi inglobati in resina epossidica)
- elementi vari (incorporati solamente in alcuni modelli): il soppressore di disturbi, il diodo ad alta tensione, l'interruttore elettronico di potenza, ecc.

L'avvolgimento primario viene pilotato dall'interruttore elettronico fino a raggiungere la corrente richiesta. Nell'istante di interruzione della corrente, sull'uscita secondaria viene generata l'alta tensione tipicamente compresa tra 20 e 30 kV per garantire l'innesco della scintilla. Poiché l'alta tensione è generata liberando l'energia induttiva immagazzinata dall'induttanza del primario, questi sistemi di accensione vengono anche chiamati "a scarica induttiva".



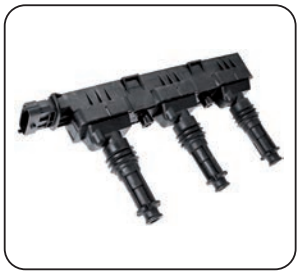
• Bobine per distribuzione meccanica:

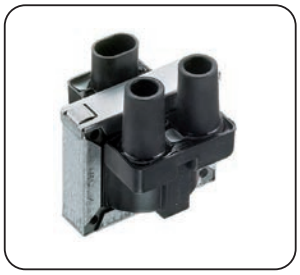
Si tratta di bobine singole e l'alta tensione viene "distribuita" alle candele, tramite appositi cavi A.T. (abbreviazione di Alta Tensione), da un distributore rotante montato sullo spinterogeno, all'interno della "calotta". Nei sistemi di accensione a distribuzione meccanica, l'alta tensione erogata dalla bobina viene trasportata tramite appositi cavi ad alta tensione e "distribuita" alle candele tramite un "commutatore rotante" posto nella "calotta" (distributore) e mosso dall'albero motore. Dopo pochi microsecondi, quando l'alta tensione supera (come valore assoluto) i 15 kV circa, si innesca la scintilla tra gli elettrodi della candela.



• Bobine a scintilla persa (seconda generazione):

Questo tipo di bobina viene chiamato a scintilla persa perché, mentre nel cilindro in fase di compressione si ha la normale scintilla di accensione, grazie alle diverse caratteristiche elettriche dei gas prima e dopo la combustione, nel cilindro in fase di scarico si ha una scintilla di piccola intensità e quindi una piccola perdita di energia.

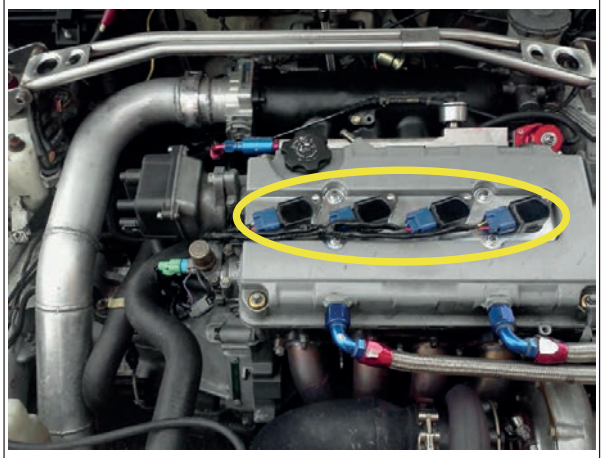


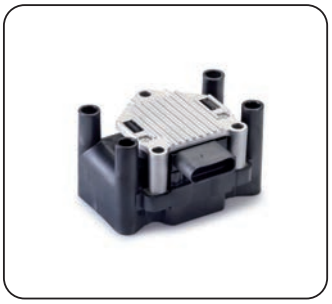


• Bobine dirette (terza generazione):

L'uscita negativa del secondario è collegata ad una sola candela direttamente, l'altro capo è collegato a massa con una connessione a bassa tensione, oppure al terminale positivo del primario (+ batteria) all'interno della bobina. Abbiamo quindi una bobina per ogni candela.

9.6XXX/9.8XXX BOBINES D'ALLUMAGE





Les bobines d'allumage permettent d'accumuler de l'énergie dans le système électrique à basse tension du véhicule. Stockée, celle-ci permet aux bougies de créer l'étincelle électrique afin d'allumer de manière optimale le mélange air/carburant garantissant ainsi une combustion complète sur les moteurs à combustion.

Principales causes de dysfonctionnement:

- court-circuit dû à une surchauffe
- alimentation insuffisante
- rupture câble
- batterie à plat
- stress mécaniques, électriques et chimiques
- humidité

Conséquences du dysfonctionnement:

- le moteur ne s'allume pas
- problèmes d'accélération et baisse de puissance
- le boîtier électronique fonctionne en urgence
- voyant de contrôle moteur allumé
- émissions NOX
- dommages sur le convertisseur catalytique

Les bobines d'allumage sont conçues et construites pour supporter des conditions difficiles de montage sous le capot. Elles doivent notamment respecter les critères suivants :

- température de fonctionnement :
  - de - 40°C à + 125°C pour les dispositifs montés sur la tête du moteur (habituellement, bobines-crayon);
    les parties au contact de la bougie doivent résister à 180°C.

Les bobines sont soumises à des tests **rigoureux de qualité et de longévité** garantissant un produit adapté à la construction et à la vente :

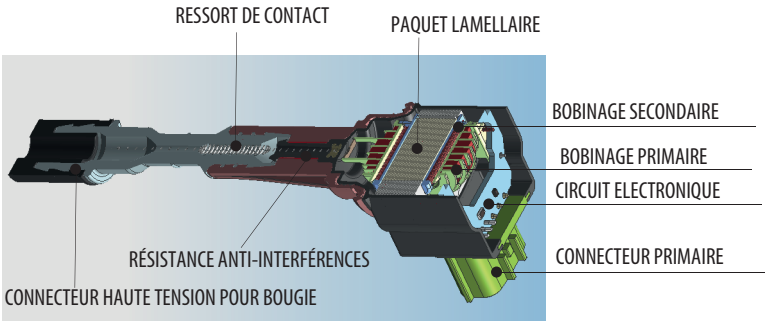
- Test d'immunité électromagnétique
- Test de résistance aux cycles rapides de température
- Test de rigidité diélectrique à décharge libre
- Test de durée
- Test de résistance aux vibrations

Si ces tests sont réussis et le feu vert pour la production est donné, lors de l'assemblage, le produit est à nouveau soumis à des cycles de contrôle qui prévoient son **inspection à 100 %**.

marketing@facet.it

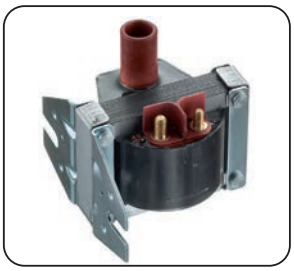
Éléments et principes de fonctionnement

Les èléments principales d'une bobine moderne sont :
• circuit électrique primaire (fil de cuivre enroulé autour du bobinage primaire)
• circuit électrique secondaire (fil de cuivre enroulé autour du bobinage secondaire)
• le circuit magnétique (paquet magnétique)
• le plateau (contenant les autres éléments englobés en résine époxy)
• éléments divers (présents seulement sur certains modèles) : l'antiparasite, la diode à haute tension, l'interrupteur électronique de puissance, etc. Le bobinage primaire est piloté par l'interrupteur électronique jusqu'à ce que le courant requis soit atteint. Au moment de l'interruption du courant, une haute tension, habituellement comprise entre 20 et 30 kV, est générée sur la sortie secondaire pour garantir l'étincelle. Puisque la haute tension est générée en libérant l'énergie inductive stockée par l'inductance du circuit primaire, ces systèmes d'allumage sont également appelés « à décharge inductive ».



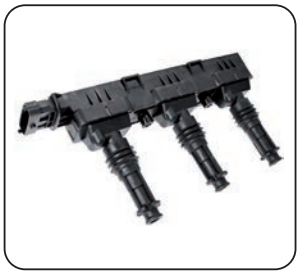
• Bobines pour distribution mécanique:

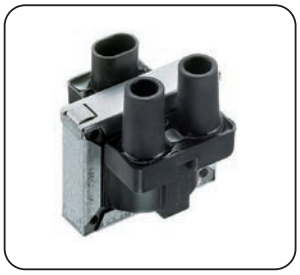
Il s'agit de bobines simples et la haute tension est distribuée aux bougies avec des câbles H.T. (abréviation de haute tension), par un distributeur tournant monté sur l'allumeur, à l'intérieur de la tête de delco. Sur les systèmes d'allumage à distribution mécanique, la haute tension fournie par la bobine est transportée par des câbles à haute tension et distribuée aux bougies avec un commutateur tournant placé dans la tête de delco (distributeur) et mis en mouvement par l'arbre moteur. Après quelques microsecondes, lorsque la haute tension dépasse (en valeur absolue) les 15 kV environ, l'étincelle est produite sur les électrodes de la bougie.



• Bobine à étincelle perdue (seconde génération):

Ce type de bobine est appelée de la sorte, car tandis que dans le cylindre en phase de compression l'on obtient une étincelle d'allumage normale, avec les différentes caractéristiques électriques des gaz avant et après la combustion, dans le cylindre en phase de déchargement, l'on obtient une étincelle de faible intensité et donc une perte d'énergie moindre. Elles peuvent être des typologies suivantes : Bobines avec 2 sorties H.T.

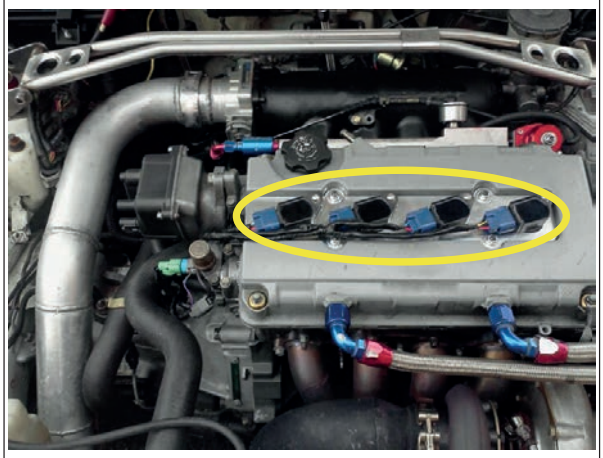


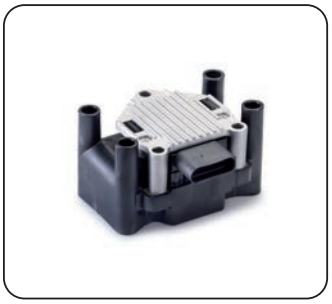


• Bobinas directas (tercera generación):

La sortie négative du bobinage secondaire est directement branchée sur une seule bougie, l'autre extrémité étant reliée à la masse avec une connexion à basse tension, ou au pôle positif du circuit primaire (+ batterie) à l'intérieur de la bobine. Nous avons donc une bobine pour chaque bougie.

9.6XXX/9.8XXX ZÜNDSPULEN





Die Zündspulen dienen als Transformatoren, indem sie für Hochspannungsimpulse sorgen.
Der Zweck dieser Impulse ist es, einen Funken (Lichtbogen) zwischen den Elektroden der Zündkerzen des Verbrennungsmotors zu erzeugen, dessen Intensität und Dauer ausreicht, um die Verbrennung des Gemischs aus Luft und Treibstoff im Inneren richtig in Gang zu setzen.

Wichtigste Störungsursachen:
- Kurzschluss durch Überhitzen
- unzureichende Versorgung
- Kabelbruch
- entladene Batterie
- mechanische, elektrische und chemische Beanspruchungen
- Feuchtigkeit

Störungsauswirkungen:
- nicht erfolgtes Anspringen des Motors
- Beschleunigungsprobleme und Leistungsabfall
- Notbetrieb des Steuergeräts
- Aufleuchten der Motorkontrollanzeige
- NOX-Emissionen
- Schäden am Katalysator

Die Zündspulen wurden so entwickelt und gebaut, dass sie den kritischen Bedingungen der Montage im Motorraum standhalten. Insbesondere müssen sie die folgenden Anforderungen erfüllen:
- Betriebstemperatur:
  - von - 40°C bis + 125°C für auf dem Motorkopf montierte Vorrichtungen (normalerweise Pencil Coil); die mit der Zündkerze in Kontakt geratenden Teile müssen 180°C standhalten.

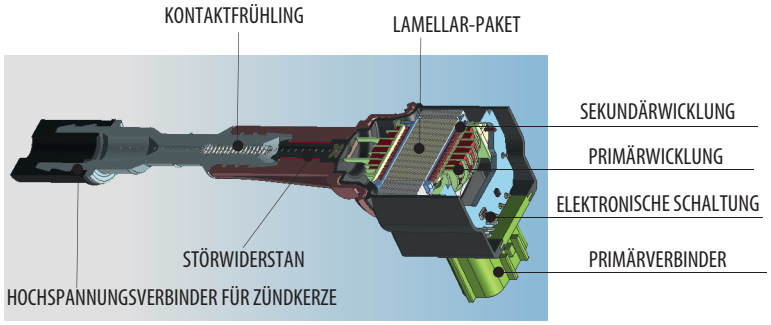
Die Zündspulen werden **strengen Prüfungen hinsichtlich Qualifizierung und Beständigkeit unterzogen,** um festzustellen, ob das Produkt sich für die Herstellung und den Verkauf eignet:
- Prüfung der elektromagnetischen Störfestigkeit
- Prüfung der Beständigkeit bei schnellen Temperaturwechseln
- Prüfung der Durchschlagfestigkeit bei freier Entladung
- Dauerversuch
- Prüfung der Schwingungsfestigkeit

Nachdem es diese Prüfungen bestanden und die Produktionsgenehmigung erhalten hat, wird das Produkt strengen Kontrollzyklen unterzogen, die die **100 % Endabnahme vorsehen.**

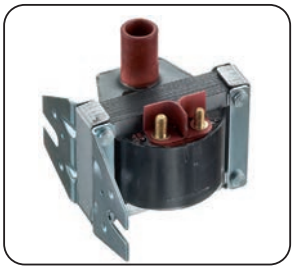
marketing@facet.it

Bauteile und Funktionsprinzip

Die wichtigsten baulichen Elemente einer modernen Zündspule umfassen:
• Primärstromkreis (auf die Primärspule gewickelter Kupferdraht)
• Sekundärstromkreis (auf die Sekundärspule gewickelter Kupferdraht)
• Magnetischer Kreis (Paket)
• das Tablett (das die anderen in Epoxidharz eingeschlossenen Elemente enthält)
• verschiedene Elemente (nur in einige Modelle eingebaut): den Störungsunterdrücker, die Hochspannungsdiode, den elektronischen Leistungsschalter, usw. Die Primärwicklung wird von dem elektronischen Schalter bis zum Erreichen des gewünschten Stroms gesteuert. Im Moment der Stromunterbrechung wird auf dem Sekundärausgang die normalerweise zwischen 20 und 30 kV liegende Hochspannung erzeugt, um den Funkenschlag zu garantieren. Da die Hochspannung durch das Freisetzen von von der Induktanz des Primärstromkreises gespeicherter induktiver Energie erzeugt wird, werden diese Zündsysteme auch „Systeme mit induktiver Entladung" genannt.



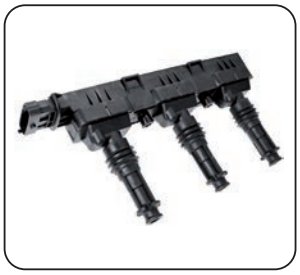
• Zündspulen zur mechanischen Verteilung:

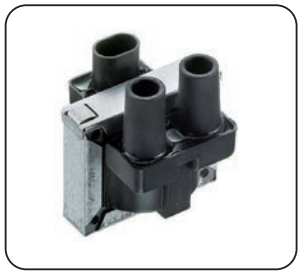


Es handelt sich um Einzelspulen und die Hochspannung wird an die Zündkerzen über entsprechende HS-Kabel „verteilt" (Abkürzung von Hochspannung), und zwar über einen im Inneren der „Haube" auf dem Zündverteiler montierten Drehverteiler. In Zündsystemen mit mechanischer Verteilung wird die von der Zündspule abgegebene Hochspannung mit Hilfe entsprechender Hochspannungskabel befördert und an die Kerzen über einen in der „Haube" (Verteiler) positionierten und von der Motorwelle angetriebenen „Drehkommutator" verteilt. Nach wenigen Mikrosekunden wird, wenn die Hochspannung (als absoluten Wert) ca. 15 kV übersteigt, der Funke zwischen den Elektroden der Zündkerze gezündet.

• Doppelfunkenzündspulen (zweite generation)

Dieser Spulentyp wird als Doppelfunkenzündspule bezeichnet, da bei Zylinder in Kompressionsphase der normale Zündfunke erzeugt wird, aufgrund der unterschiedlichen elektrischen Eigenschaften der Gase vor und nach der Verbrennung wird im Zylinder beim Entladen ein Funke geringer Intensität erzeugt und damit ein geringer Energieverlust. Es gibt die folgenden Typen: Spulen mit zwei HS-Ausgängen.

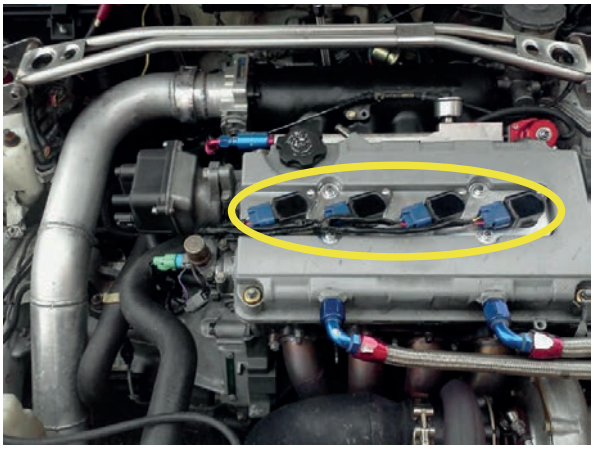




• Direkte Zündspulen (dritte Generation):

Der negative Ausgang des Sekundärstromkreises ist an nur eine Kerze direkt angeschlossen, das andere Ende ist mit einem Niederspannungsanschluss an die Masse angeschlossen bzw. an die positive Klemme des Primärstromkreises (+ Batterie) im Inneren der Spule. Wir haben also eine Spule für jede Kerze.

9.6XXX/9.8XXX BOBINAS DE ENCENDIDO



Las bobinas de encendido permiten acumular una carga en el sistema eléctrico de baja tensión del vehículo, que se almacena y se hace explotar con una chispa eléctrica generada por la bujía para encender de forma óptima la mezcla de aire/combustible y para que se produzca la combustión completa en los motores de explosión.

Causas principales de mal funcionamiento:

- cortocircuito por recalentamiento
- alimentación insuficiente
- rotura del cable
- batería descargada
- estrés mecánico, eléctrico y químico
- humedad

Efectos de un mal funcionamiento:

- falta de arranque del motor
- problemas de aceleración y disminución de potencia
- funcionamiento de emergencia de la centralita
- encendido del testigo de control del motor
- emisiones NOX
- daños al convertidor catalítico

Las bobinas de encendido están diseñadas y fabricadas para soportar las condiciones críticas de montaje en el compartimento del motor. En especial, deben cumplir los siguientes requisitos:

- temperatura de funcionamiento:
  - de - 40°C a + 125°C para los dispositivos montados en el cabezal del motor (típicamente, Pencil Coil); las partes en contacto con la bujía deben resistir 180°C.

Las bobinas se someten a **rigurosas pruebas de cualificación y de duración** para determinar si el producto es apto para la fabricación y la venta:

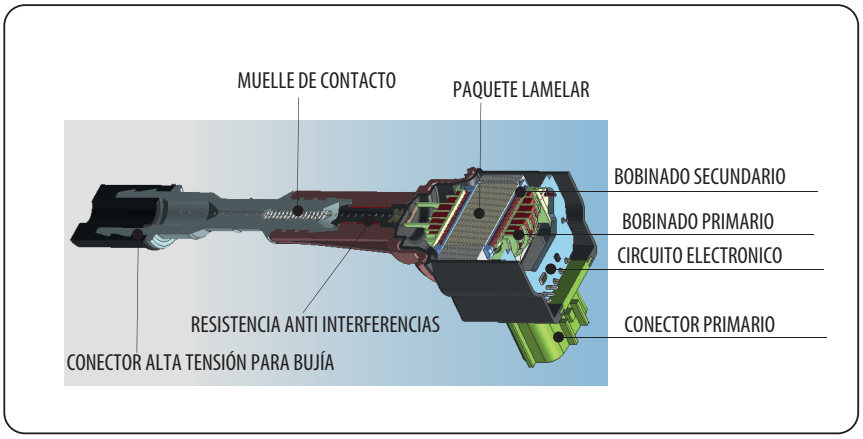
- Prueba de inmunidad electromagnética
- Prueba de resistencia a los ciclos rápidos de temperatura
- Prueba de rigidez dieléctrica de descarga libre
- Prueba de duración
- Prueba de resistencia a las vibraciones•

Tras superar esas pruebas, y con la aprobación para la producción, durante el ensamblaje el producto se somete a severos ciclos de control que constituyen el **ensayo al 100%**.

marketing@facet.it

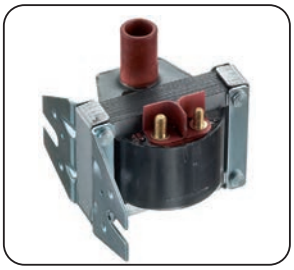
Elementos constructivos y principio de funcionamiento

Los elementos constructivos principales de una bobina moderna son:
• circuito eléctrico primario (alambre de cobre envuelto en el carretel primario)
• circuito eléctrico secundario (alambre de cobre envuelto en el carretel secundario)
• el circuito magnético (paquete)
• la bandeja (que contiene los otros elementos englobados en resina epoxy)
• elementos varios (incorporados solamente en algunos modelos): el supresor de disturbios, el diodo de alta tensión, el interruptor electrónico de potencia, etc. El bobinado primario está controlado por el interruptor electrónico hasta que alcanza la corriente prevista. En el instante de interrupción de la corriente, en la salida secundaria se genera la alta tensión que típicamente es de 20 a 30 kV, para garantizar el encendido de la chispa. Como la alta tensión se genera liberando la energía inductiva almacenada por la inductancia del primario, estos sistemas de encendido también se llaman "de descarga inductiva".



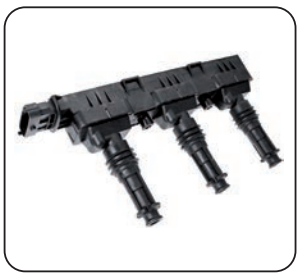
• Bobinas para distribución mecánica:

Se trata de bobinas individuales, y la alta tensión se "distribuye" a las bujías mediante los correspondientes cables A.T. (abreviatura de Alta Tensión) mediante un distribuidor giratorio montado en el distribuidor de encendido, en el interior de la "tapa". En los sistemas de encendido de distribución mecánica, la alta tensión distribuida por la bobina se transporta mediante los correspondientes cables de alta tensión y se "distribuye" a las bujías mediante un "conmutador giratorio" presente en la "tapa" (distribuidor) y movido por el árbol motor. Después de pocos microsegundos, cuando la alta tensión supera (como valor absoluto) los 15 kV aproximadamente, se enciende la chispa entre los electrodos de la bujía.



• Bobinas de chispa perdida (segunda generación):

Este tipo de bobina se llama de chispa perdida porque, mientras en el cilindro en fase de compresión se tiene la chispa normal de encendido, gracias a las distintas características eléctricas de los gases antes y después de la combustión, en el cilindro en fase de descarga se tiene una chispa de baja intensidad y, por lo tanto, una pequeña pérdida de energía. Pueden ser de los siguientes tipos: Bobinas con 2 salidas A.T.



• Bobinas directas (tercera generación):

La salida negativa del secundario está conectada a una sola bujía directamente, el otro extremo está conectado a masa con una conexión de baja tensión, o al terminal positivo del primario (+ batería) dentro de la bobina. Por lo tanto, tenemos una bobina por cada bujía.

GENERAL CONDITIONS OF SALE

1. SCOPE AND EFFECTIVENESS

All supplies of products made by Facet S.r.l. (the «Seller») to a customer (the «Buyer») are governed by these general terms and conditions which shall prevail on purchase conditions of the Buyer, as well as by any special conditions provided for in offers and/or order confirmations by the Seller. In the case of conflict between the general terms and conditions and the special conditions, the latter shall prevail.
The data and illustrations relating to products appearing in the Seller's catalogues or brochures are indicative in nature and not binding, unless expressly provided so in the order confirmation by the Seller and may be subject to changes in design and materials without notice.
The original product codes indicated in the catalogues and in other documents are mentioned only for the purpose of identifying the spare parts. The Seller supplies only products of its own production identified with its own product codes and not products having OE codes.

2. COMPLETION OF THE CONTRACT

The supply contract is considered being completed only on the Seller's written confirmation accepting the Buyer's order. The Seller reserves the right not to accept orders in cases where there is a dispute with the customer relating to a previous order.

3. PRICES AND PAYMENTS

Unless otherwise agreed, payments of the price must be carried out by the Buyer in accordance with the terms and conditions provided and using the method provided for in the order confirmation at the domicile of the Seller. Payments made by the Buyer to finders and/or agents without a special Power of Attorney will not be enforceable on the Seller.
In the event of a delay in payment, the Buyer will be liable for the payment of late payment default interest at the rate of the European Central Bank in force on that date plus 7 (seven) points. In every case, the Seller has the right to ask for compensation for the greater damage suffered.
The Buyer will not for any reason, except with written authorisation, be able to off-set or retain sums due to the Seller, nor will he be able to suspend payments.
The prices of the products are to be considered in Euros and do not include VAT, packaging, transport and insurance costs. The Seller may change the prices and rates in force at any time and without notice, except for ongoing orders. Price increases are possible for increases in raw materials, labour, transport, insurance premiums, etc.

4. TERMS OF DELIVERY AND PRODUCTION

Unless otherwise stated in the order confirmation, supplies of the products are intended for goods delivered in accordance with Incoterms 2010: FCA Orbassano. The goods always travel on behalf of and at the risk of the Buyer.
The terms of delivery are indicative and in the event of delay the Buyer is not entitled to request termination of the contract and/or compensation for damages.

5. RETENTION OF TITLE

The delivered products remain the property of the Seller until full payment of the price has been received.
The Buyer shall have the right to sell the purchased products, or the new products which incorporate the products supplied by the Seller, on the understanding that in such cases, all the proceeds will be transferred to the Seller right down to the agreed price due from the Buyer to the Seller for the supply of such products.
The right to sell the products shall lapse if the Buyer has failed to comply with payment obligations for a period greater than 20 (twenty) working days after the payment deadline. In such event, it will be the responsibility of the Seller to revoke the right to sell in writing to the Buyer. The Buyer should put in place every measure necessary for the protection of the products subject to the retention of title, and any other measure necessary to not confuse the products of the Seller with products from other suppliers and keep the products of the Seller in well defined areas and easily identifiable.

6. RESPONSIBILITY OF THE SELLER AND LIMITS

The Seller is exclusively responsible for the correct production of products supplied, which will require to have all the features provided by the Seller in the order confirmation. The Seller does not assume any responsibility, however, for possible faulty operation of machines or systems made by the Buyer using products supplied by the Seller.
The products must be properly installed by trained and qualified technicians only, in accordance with the vehicle specifications and complying with the requirements of national regulations.
In such cases, the Buyer will not be able seek damages for lost profits, loss of production, reputational damages, vehicle breakdown.
The liability of the Seller is, however, limited to the value of the goods supplied, unless due to serious negligence or willful misconduct within the meaning of the law.

7. FORCE MAJEURE

Should the Seller be unable to comply with the contract for reasons of force majeure or independent factors outside his control, the deadlines for the supply shall be automatically extended for a period equivalent to the lingering effects of the force majeure event. The following are to be regarded as causes of force majeure (without limitation): lack of energy or raw materials, strikes, public administration measures, impediments to circulation or to production activities.

8. COMPLAINTS and ACCEPTANCE OF PRODUCTS

Any complaint concerning the non-conformity of the goods delivered or for damages caused by transportation or for any missing quantities with respect to the products ordered, must be communicated by registered letter, with receipt acknowledgment, addressed directly to the Seller within 8 (eight) days from the date of delivery of the products in the case of visible defects and within 8 (eight) days from the discovery in the case of hidden defects, and in any case, within a month from delivery, with a detailed explanation of the facts. In the event of non-compliance with the above, the amounts invoiced are considered, to all effects, accepted and no longer contestable by the Buyer.
The return of goods will not be accepted unless previously agreed in writing by the Seller.

9. CONFORMITY TO THE SPECIFICATIONS AND GUARANTEE TERMS

The Seller guarantees that the products will be compliant with the technical specifications declared by the Seller to the Buyer in the order confirmation and the guarantee will be valid for 2 (two) years from the date of delivery of the products and for products or parts replaced, from the day of their replacement.
During the guarantee period, the Seller to whom the Buyer has made a formal notice of the defects, undertakes, at his own discretion, and within a reasonable period of time, to repair or replace the products or the defective parts free of charge. The costs and risks of transportation of the defective products to the Seller's address are borne by the Buyer. The replaced products remain the property of the Seller.
The guarantee is considered lapsed where the end use of the product does not conform with the regular use of such products or not provided for in the catalogues of the Seller or if the products have been modified or repaired without the Seller's authorisation.

10. GUARANTEE OF THE SUITABILITY OF THE PRODUCTS ONLY TO EU RULES

The Seller guarantees that the products will conform to the standards of the European Union (EU) as they may be applicable.
No guarantee is issued by the Seller for the conformity of these products with the rules and regulations, expressly including those rules regarding safety and accident prevention, in force in the Buyer's country, where those reside outside the EU, or more generally, in any country that does not belong to the EU in which the supplied products are used.

11. CONFIDENTIALITY AND DATA PROTECTION

Documents of any kind provided by the Seller shall remain the Seller's property and cannot be transferred to a third party or reproduced. The Buyer undertakes, even after the end of the contract, not to disclose commercial secrets and confidential information that the Buyer has been party to or which has come to his knowledge in the course of his relationship with the Seller.
The Seller herewith declares that he will use the personal data transferred by the Customer in respect of the terms provided under the Italian privacy law (Legislative Decree n. 196/03).

12. TERMINATION OF THE CONTRACT

The contract may be terminated pursuant to art. 1456 of the Italian Civil Code by virtue of a simple written declaration on the part of the Seller, taking advantage of this termination clause if the Buyer:
- omits or delays payments due;
- is placed in liquidation or has been subject to any insolvency proceedings.

13. INTELLECTUAL PROPERTY

The Seller retains the intellectual property of projects, studies, drawings, models and products which are realised or made in his name and on his behalf. The brands under which the products are sold may not be used by the Buyer if they are not identified as such.

14. APPLICABLE LAW AND DISPUTE RESOLUTION CLAUSE

All contracts with the Seller shall be governed by Italian law. Any dispute will be referred to the exclusive jurisdiction of the Court of Turin.

Date: _____ Stamp, Name, Surname and Signature of the Buyer: _____

Pursuant to articles. 1341 and 1342 of the Italian Civil Code, the Buyer declares to have read and specifically approved the terms contained in the following articles of general conditions: art. 3 Set-off Prohibition; art. 5 Retention of title; art. 6 Limitation of Liability; art. 8 Complaints and Acceptance of Products; art. 14 Dispute Resolution Clause.

Date: _____ Stamp, Name, Surname and Signature of the Buyer: _____

MOD-0350(F)_I
(valide dal 1° agosto 2017)

CONDIZIONI GENERALI DI VENDITA

1. AMBITO DI APPLICAZIONE E EFFICACIA

Tutte le forniture di prodotti effettuate da Facet S.r.l. (il "Venditore") a un cliente (l'"Acquirente") sono disciplinate dalle presenti condizioni generali che prevalgono sulle condizioni d'acquisto dell'Acquirente, nonché dalle condizioni particolari previste nelle offerte e/o conferme d'ordine del Venditore. In caso di contrasto fra quanto contenuto nelle condizioni generali e nelle condizioni particolari, queste ultime prevarranno.
I dati e le illustrazioni relative ai prodotti risultante dai cataloghi o prospetti del Venditore hanno carattere indicativo e non valore vincolante se non espressamente previsto nella conferma d'ordine del Venditore e possono essere soggetti a modifiche di disegno e materiale senza preavviso.
I numeri originali (OE) indicati nei cataloghi od in altri documenti sono menzionati solamente al fine di identificare le parti di ricambio. Il venditore fornisce unicamente prodotti di propria produzione contrassegnati con il proprio codice articolo e non prodotti con i numeri OE.

2. FORMAZIONE DEL CONTRATTO

Il contratto di fornitura si perfeziona con la conferma scritta del Venditore di accettazione dell'ordine dell'Acquirente. Il Venditore si riserva il diritto di non accettare ordini nel caso in cui vi sia una controversia con il cliente relativa ad un ordine precedente.

3. PREZZI E PAGAMENTI

Salvo diverso accordo, i pagamenti del prezzo devono essere effettuati dall'Acquirente nei termini e con le modalità previsti nella conferma d'ordine presso il domicilio del Venditore. I pagamenti fatti dall'Acquirente a procacciatori e/o agenti senza una procura specifica non saranno opponibili al Venditore.
In caso di ritardo nei pagamenti, l'Acquirente sarà tenuto al pagamento degli interessi moratori pari al tasso della Banca Centrale Europea in vigore a quella data, maggiorato di 7 (sette) punti, salvo in ogni caso la facoltà per il Venditore di chiedere il risarcimento del maggior danno subito.
L'Acquirente non potrà per qualunque motivo, salvo autorizzazione scritta,compensare o trattenere somme dovute al venditore, né potrà sospendere i pagamenti.
I prezzi dei prodotti si intendono in Euro e non comprendono IVA, imballo, spese di trasporto e assicurazione. Il Venditore può modificare i prezzi e le tariffe in vigore in ogni momento e senza preavviso, salvo per gli ordini in corso. Ciò se si verificano rincari delle materie prime, della manodopera, dei trasporti, dei premi d'assicurazione, etc.

4. TERMINI DI CONSEGNA E RESA

Se non diversamente stabilito nella conferma d'ordine, le forniture dei prodotti si intendono per merce resa secondo Incoterms 2010: FCA Orbassano. La merce viaggia sempre per conto e rischio dell'Acquirente.
I termini di consegna si intendono indicativi e in caso di ritardo l'Acquirente non ha il diritto di richiedere la risoluzione del contratto e/o il risarcimento dei danni.

5. RISERVA DI PROPRIETÀ

I prodotti consegnati restano di proprietà del Venditore fino al completo pagamento del relativo prezzo.
L'Acquirente avrà il diritto di vendere i prodotti acquistati, o i nuovi prodotti in cui i prodotti fornitigli dal Venditore siano stati incorporati, fermo restando che in tal caso tutti i proventi verranno trasferiti al Venditore fino alla concorrenza del prezzo dovuto dall'Acquirente al Venditore per la fornitura di tali Prodotti.
Tale diritto di vendere i prodotti decade qualora l'Acquirente sia rimasto inadempiente all'obbligo di pagamento per un periodo di tempo superiore a 20 (venti) giorni lavorativi rispetto alla scadenza. A tal fine, sarà onere del Venditore comunicare per iscritto all'Acquirente la revoca del diritto a vendere. L'Acquirente dovrà porre in essere ogni misura necessaria per la protezione dei prodotti oggetto della riserva di proprietà, nonché ogni misura per non confondere i prodotti del Venditore con i prodotti di altri fornitori e conservare i prodotti del Venditore in spazi ben delimitati e facilmente individuabili.

6. RESPONSABILITA' DEL VENDITORE E LIMITI

Il Venditore è esclusivamente responsabile della corretta produzione dei prodotti forniti, che dovranno avere le caratteristiche previste nella conferma d'ordine del Venditore. Il Venditore non assume, invece, alcuna responsabilità per l'eventuale difettoso funzionamento di macchine o sistemi realizzati dall'Acquirente con i prodotti forniti dal Venditore.
I prodotti devono essere installati in modo appropriato solo da tecnici competenti e qualificati, conformemente alle specifiche del veicolo e rispettando i requisiti delle normative nazionali.
In ogni caso, l'Acquirente non potrà chiedere il risarcimento dei danni per mancato profitto, perdita di produzione, perdita di immagine, fermo dell'autoveicolo.
La responsabilità del Venditore è, comunque, limitata al valore della merce fornita, salvo dolo o colpa grave ai sensi di legge.

7. FORZA MAGGIORE

Qualora il Venditore sia impossibilitato a rispettare il contratto per cause di forza maggiore o comunque indipendenti dalla sua volontà, i termini previsti per l'esecuzione della fornitura sono automaticamente prorogati per un periodo equivalente al perdurare degli effetti dell'evento di forza maggiore. A tal fine, sono da considerarsi cause di forza maggiore, ai fini esplicativi e non esaustivi: carenza di energia o di materie prime, scioperi, provvedimenti della pubblica amministrazione, impedimenti alla circolazione o alle attività produttive.

8. RECLAMI ed ACCETTAZIONE DEI PRODOTTI

Qualsiasi reclamo relativo alla non conformità delle merci consegnate o per danni conseguenti al trasporto o per eventuali quantità mancanti rispetto ai prodotti ordinati dovrà essere comunicato per lettera raccomandata con avviso di ricezione indirizzata direttamente al venditore entro 8 (otto) giorni dalla data di consegna dei Prodotti, in caso di vizi palesi ed entro 8 (otto) giorni dalla scoperta in caso di vizi occulti, e, comunque, entro un mese dalla consegna, con una dettagliata esposizione dei fatti. In difetto, gli importi fatturati si intenderanno, a tutti gli effetti, accettati e non più contestabili dall'Acquirente.
Non si accettano rese delle merci se non preventivamente autorizzate per iscritto dal Venditore.

9. CONFORMITÀ ALLE SPECIFICHE E TERMINI DI GARANZIA

Il Venditore garantisce che i prodotti saranno conformi alle specifiche tecniche dichiarate dal Venditore stesso all'Acquirente nella conferma d'ordine e detta garanzia avrà validità per 2 (due) anni decorrenti dalla data di consegna dei prodotti e, per i prodotti o componenti sostituiti, dal giorno della loro sostituzione.
Nel periodo di garanzia, il Venditore al quale l'Acquirente abbia denunciato i difetti, si impegna, a sua scelta, entro un termine ragionevole, a riparare o sostituire gratuitamente i prodotti o le parti di esse che fossero risultati difettosi. Le spese e i rischi per il trasporto dei prodotti risultati difettosi alla sede del Venditore sono a carico dell'Acquirente. I prodotti sostituiti restano di proprietà del Venditore.
La garanzia decade nel caso di utilizzo non conforme alla destinazione finale abituale dei prodotti o non prevista nei cataloghi del venditore oppure se i prodotti sono stati modificati o riparati senza l'autorizzazione del Venditore.

10. GARANZIA PER L'ADEGUATEZZA DEI PRODOTTI ALLE SOLE NORME UE

Il Venditore garantisce che i Prodotti saranno conformi alle norme dell'Unione europea (UE) a essi eventualmente applicabili.
Nessuna garanzia viene rilasciata dal Venditore in merito alla conformità di tali Prodotti con le norme e i regolamenti, ivi espressamente incluse le norme in tema di sicurezza e di antinfortunistica, in vigore nella nazione dell'Acquirente, ove questi risieda al di fuori della UE, o più in generale, in qualsivoglia nazione che non appartenga alla UE in cui i Prodotti forniti vengono utilizzati.

11. RISERVATEZZA E TUTELA DEI DATI

I documenti di qualsiasi natura forniti dal Venditore rimarranno di sua proprietà e non possono essere trasferiti a terzi o riprodotti. L'Acquirente si impegna, anche dopo la fine del contratto a non divulgare i segreti commerciali e le informazioni riservate che siano state al medesimo comunicati o dei quali venga a conoscenza nel corso del suo rapporto con il Venditore.
Il Venditore con le presenti dichiara che utilizzerà i dati personali trasferiti dal Cliente nel rispetto delle previsioni del codice italiano sulla privacy (Decreto Legislativo n. 196/03).

12. RISOLUZIONE DEL CONTRATTO

Il contratto di fornitura potrà essere risolto di diritto ai sensi dell'art. 1456 c.c. per effetto della semplice dichiarazione scritta del Venditore di avvalersi della presente clausola risolutiva espressa qualora l'Acquirente:
- Ometta o ritardi i pagamenti dovuti;
- Venga posto in liquidazione o sia stato assoggettato ad una qualsiasi procedura concorsuale.

13. PROPRIETÀ INTELLETTUALE

Il Venditore conserva la proprietà intellettuale dei progetti, degli studi, dei disegni, dei modelli e dei prodotti che realizza o che vengono realizzati a suo nome e per suo conto. I marchi sotto quali i prodotti sono venduti non possono essere utilizzati dall'Acquirente se non per identificarli.

14. LEGGE APPLICABILE E MODALITÀ DI RISOLUZIONE DELLE CONTROVERSIE

Tutti i contratti con il Venditore saranno disciplinati dalla legge italiana. Qualsiasi controversia sarà devoluta alla competenza esclusiva del Foro di Torino.

Data: _____ Timbro, Nome Cognome e firma dell'Acquirente: _____

Ai sensi degli artt. 1341 e 1342 c.c. l'Acquirente dichiara di avere letto e approvare specificamente le previsioni contenute nei seguenti articoli delle condizioni generali: art. 3 Divieto di compensazione art. 5 Riserva di proprietà; art. 6 Limitazione della responsabilità; art. 8 Reclami ed accettazione dei Prodotti; art. 14 Modalità di risoluzione delle controversie.

Data: _____ Timbro, Nome Cognome e firma dell'Acquirente: _____

CONDITIONS GÉNÉRALES DE VENTES

1. DOMAINE D'APPLICATION ET EFFICACITÉ

Toutes les fournitures de produits effectuées par Facet S.r.l. (le « Vendeur »)à un client (l'« Acheteur »)sont régies par les présentes conditions générales qui l'emportent sur les conditions générales d'achat de l'Acheteur ainsi que sur les conditions particulières établies dans les offres et/ou confirmations de commande du Vendeur. En cas de contraste entre ce qui est exposé dans les conditions générales et dans les conditions particulières, ces dernières l'emporteront.
Les données et les illustrations relatives aux produits telles qu'elles figurent aux catalogues ou brochures du Vendeur ont un caractère indicatif et n'ont aucune valeur contraignante sauf disposition contraire expresse dans la confirmation de commande du Vendeur et elles sont susceptibles de modifications sans préavis concernant le dessin et le matériel.
Les codes originaux (OE) indiqués dans les catalogues ou dans autres documents sont mentionnés uniquement pour identifier les pièces de rechange. Le Vendeur livre seulement produits de propre production et avec propre code article et non produits avec codes OE.

2. FORMATION DU CONTRAT

Le contrat de fourniture sera finalisé par la confirmation écrite du Vendeur d'acceptation de la commande de l'Acheteur. Le Vendeur se réserve le droit de ne pas accepter de commande en cas de litige en cours avec le client concernant une commande précédente.

3. PRIX ET PAIEMENTS

Sauf si les parties n'en conviennent autrement, les paiements du prix doivent être effectués par l'Acheteur dans les délais et aux conditions établis dans la confirmation de commande au domicile du Vendeur.
Les paiements effectués par l'Acheteur à des apporteurs d'affaires et/ou agents sans mandat spécifique ne seront pas opposables au Vendeur.
En cas de retard de paiement, l'Acheteur sera tenu de verser des intérêts de retard au taux de la Banque Centrale Européenne en vigueur à la date en question, majoré de 7 (sept) points, sans préjudice de la faculté du Vendeur de demander les dommages intérêts pour tout dommage ultérieur.
L'Acheteur ne pourra pas, pour quelque raison que ce soit, sauf autorisation écrite, compenser ou garder toute somme due au Vendeur et il ne pourra non plus suspendre les paiements.
Les prix des produits s'entendent en Euros et sont hors TVA, emballage, frais de transport et d'assurance. Le Vendeur peut modifier les prix et les tarifs en vigueur à n'importe quel moment et sans préavis, sauf pour les commandes en cours. Cela en cas de renchérissement des matières premières, de la main d'œuvre, des transports, des prix d'assurance, etc.

4. DÉLAIS DE LIVRAISON ET MISE À DISPOSITION

Sauf si les parties n'en conviennent autrement dans la confirmation de commande, les fournitures des produits s'entendent pour mise à disposition de la marchandises selon les Incoterms 2010: FCA Orbassano. La marchandise voyage toujours pour le compte et aux risques et périls de l'Acheteur.
Les délais de livraison sont indicatifs et en cas de retard l'Acheteur n'aura aucun droit de demander la résiliation du contrat et/ou les dommages-intérêts.

5. RÉSERVE DE PROPRIÉTÉ

Les produits livrés restent la propriété du Vendeur jusqu'au complet paiement du prix relatif.
L'Acheteur aura le droit de vendre les produits achetés, ou les nouveaux produits ayant intégré les produits fournis par le Vendeur, étant entendu qu'en ce cas-là tous les revenus seront transférés au Vendeur jusqu'à concurrence du prix dû par l'Acheteur au Vendeur pour la fourniture desdits Produits.
Ce droit de vendre les produits expire dès lors que l'Acheteur n'aurait pas accompli son obligation de paiement pour une période de plus de 20 (vingt) jours ouvrables à partir de l'échéance. À cet effet, il incombe au Vendeur d'informer par écrit l'Acheteur de la révocation du droit de vendre. L'Acheteur devra mettre en œuvre toute mesure nécessaire pour la protection des produits faisant l'objet de la réserve de propriété ainsi que toute mesure permettant de ne pas confondre les produits du Vendeur avec les produits d'autres fournisseurs et de garder les produits du Vendeur dans des espaces bien délimités et facilement identifiables.

6. RÉSPONSABILITÉ DU VENDEUR ET LIMITATIONS

Le Vendeur ne sera responsable que de la bonne production des produits fournis, qui devront avoir les caractéristiques indiquées dans la confirmation de commande du Vendeur. Par contre, le Vendeur ne prend aucune responsabilité concernant l'éventuel mauvais fonctionnement de machines ou systèmes réalisés par l'Acheteur avec les produits fournis par le Vendeur.
Les produits doivent être correctement installés seulement par des techniciens formés et qualifiés, conformément aux spécifications du véhicule et en respect des réglementations nationales.
De toute manière, l'Acheteur ne pourra pas demander de dommages-intérêts pour manque à gagner, perte de production, perte d'image, immobilisation du véhicule automobile.
La responsabilité du Vendeur est de toute manière limitée à la valeur de la marchandise fournie, sauf en cas de dol ou de faute grave aux termes de la loi.

7. FORCE MAJEURE

Au cas où le Vendeur serait empêché de respecter le contrat pour des raisons de force majeure ou de toute manière indépendantes de sa volonté, les délais prévus pour l'exécution de la fourniture seront automatiquement prorogés d'une période correspondant à la durée des effets de l'événement de force majeure. À cet effet, on entend pour raisons de force majeure, à titre purement explicatif et non exhaustif : pénurie d'énergie ou de matières premières, grèves, mesures de l'administration publique, entraves à la circulation ou aux activités productives.

8. RÉCLAMATIONS et ACCEPTATION DES PRODUITS

Toute réclamation pour la non conformité des marchandises livrées ou pour des dommages découlant du transport ou pour des quantités manquantes par rapport aux produits commandés devra être communiquée par lettre recommandée avec avis de réception adressée directement au Vendeur dans un délai de 8 (huit) jours de la date de livraison des Produits, en cas de vices apparents et dans un délai de 8 (huit) jours de la découverte de vices cachés et, de toute manière, dans le délai d'un mois de la livraison, accompagnée de l'exposition détaillé des faits. À défaut de cela, les montants facturés seront considérés acceptés, à tous les effets, et ne seront plus contestables par l'Acheteur.
Aucun retour de marchandises ne sera accepté sans l'autorisation préalable écrite du Vendeur.

9. CONFORMITÉ AUX SPÉCIFICATIONS ET TERMES DE GARANTIE

Le Vendeur garantit que les produits seront conformes aux spécifications techniques déclarées par le Vendeur même à l'Acheteur dans la confirmation de commande et ladite garantie sera valable pour 2 (deux) ans à partir de la date de livraison des produits et, pour les produits ou les composants remplacés, à partir du jour de leur remplacement.
Pendant la période de garantie, le Vendeur auquel l'Acheteur aurait dénoncé les défauts, s'engage, de son choix, à réparer ou remplacer gratuitement dans un délai raisonnable les produits ou leurs parties résultant défectueux. Les frais et les risques du transport chez le Vendeur des produits résultant défectueux sont à la charge de l'Acheteur. Les produits remplacés restent la propriété du Vendeur.
La garantie expire en cas d'utilisation non conforme à la destination finale habituelle des produits ou non prévue dans les catalogues du vendeur ou bien si les produits ont été modifiés ou réparés sans l'autorisation du Vendeur.

10. GARANTIE DE LA CONFORMITÉ DES PRODUITS AUX SEULES NORMES UE

Le Vendeur garantit que les Produits seront conformes aux normes de l'Union européenne (UE) qui leur seront éventuellement applicables.
Le Vendeur ne délivre aucune garantie concernant la conformité de ces Produits aux normes et règlements, y compris expressément les normes en matière de sécurité et accidents, en vigueur dans la nation de l'Acheteur, si ce dernier est résident en dehors de l'UE ou, plus en général, en quelque nation que ce soit n'appartenant pas à l'UE dans laquelle les Produits fournis sont utilisés.

11. CONFIDENTIALITÉ ET PROTECTION DES DONNÉES

Les documents de quelque nature que ce soit fournis par le Vendeur resteront sa propriété et ne pourront être transférés à des tiers ou reproduits. L'Acheteur s'engage, également après la fin du contrat, à ne pas divulguer à des tiers les secrets commerciaux ou les informations réservées lui ayant été communiqués et dont il viendrait à connaissance au cours de son rapport avec le Vendeur.
Par les présentes le Vendeur déclare qu'il utilisera les données personnelles communiquées par le Client dans le respect des dispositions du code italien en matière de confidentialité (Décret Législatif n. 196/03).

12. RÉSILIATION DU CONTRAT

Le contrat de fourniture pourra être résilié de plein droit aux termes de l'art.1456 du code civil par la simple déclaration écrite du Vendeur de se prévaloir de la présente clause résolutoire expresse dans les cas suivants :
- en cas de défaut ou de retard de paiement de l'Acheteur
- si l'Acheteur est mis en liquidation judiciaire ou a été soumis à une procédure collective.

13. PROPRIÉTÉ INTELLECTUELLE

Le Vendeur garde la propriété intellectuelle des projets, des études, des dessins, des modèles et des produits qu'il réalise ou qui sont réalisés en son nom ou pour son compte. Les marques sous lesquelles les produits sont vendus ne peuvent être utilisées par l'Acheteur que pour les identifier.

14. LOI APPLICABLE ET MODALITÉS DE RÈGLEMENT DES LITIGES

Tous les contrats avec le Vendeur seront régis par le droit italien. Tout litige sera soumis à la compétence exclusive du Tribunal de Turin.

Date: _____ Cachet, Prénom Nom et signature de l'Acheteur: _____

Aux termes des articles 1341 et 1342 du c.v. l'Acheteur déclare avoir lu et approuvé spécifiquement les dispositions des articles suivants des conditions générales : art. 3 Interdiction de compensation art. 5 Réserve de propriété; art. 6 Limitation de la responsabilité; art. 8 Réclamation et Acceptation des Produits; art. 14 Modalités de règlement des litiges.

Date: _____ Cachet, Prénom Nom et signature de l'Acheteur: _____

ALLGEMEINE VERKAUFSBEDINGUNGEN

1. GELTUNGSBEREICH UND WIRKSAMKEIT

Für alle Lieferungen von Produkten durch die Gesellschaft Facet S.r.l. (der "Verkäufer") an einen Kunden (der "Käufer") gelten die vorliegenden allgemeinen Verkaufsbedingungen, die vor den Einkaufsbedingungen des Käufers sowie den besonderen Bedingungen in den Angeboten und/oder Auftragsbestätigungen des Verkäufers Vorrang haben. Sollten Widersprüche zwischen dem Inhalt der allgemeinen Bedingungen und dem Inhalt der besonderen Bedingungen bestehen, sind Letztere vorrangig.
Die Daten und Abbildungen in Bezug auf die Produkte in den Katalogen oder Broschüren des Verkäufers sind Beispiele und haben keinen bindenden Wert, wenn dies in der Auftragsbestätigung des Verkäufers nicht ausdrücklich vorgesehen ist. Zudem können diese Daten und Abbildungen Änderungen am Design und Material unterliegen, ohne dass diese vorher angekündigt werden müssen.
Die angegebenen Originalnummern in Katalogen oder anderen Dokumenten sind nur zum Zwecke der Identifikation angegeben. Der Verkäufer liefert nur Produkte aus eigener Produktion, die mit Facet Artikel-Nrn. und nicht OE P/Nr. identifiziert sind.

2. ZUSTANDEKOMMEN DES VERTRAGS

Der Liefervertrag kommt zustande, wenn der Verkäufer die Auftragsannahme des Käufers schriftlich bestätigt. Der Verkäufer behält sich das Recht vor, Aufträge nicht anzunehmen, wenn Streitigkeiten mit einem Kunden in Bezug auf einen vorhergehenden Auftrag vorliegen.

3. PREISE UND ZAHLUNGEN

Unbeschadet anderslautender Vereinbarungen, sind die Zahlungen vom Käufer innerhalb der in der Auftragsbestätigung vorgesehenen Zahlungsfristen und Modalitäten am Geschäftssitz des Verkäufers zu leisten. Zahlungen, die vom Käufer an Vermittler und/oder Vertreter geleistet werden, können ohne eine Sondervollmacht nicht beim Verkäufer geltend gemacht werden.
Im Fall von verspäteten Zahlungen ist der Käufer verpflichtet, Verzugszinsen in Höhe des von der Europäischen Zentralbank festgelegten und zu jenem Datum geltenden Zinssatzes zu zahlen, die um 7 (sieben) Prozent erhöht werden. Unbeschadet davon bleibt das Recht des Verkäufers, einen größeren Schaden geltend zu machen.
Der Käufer ist nicht befugt, aus welchem Grund auch immer, Summen, die dem Verkäufer zustehen, zu verrechnen oder einzubehalten oder die Zahlungen einzustellen, es sei denn, dies wurde schriftlich genehmigt.
Die Preise für die Produkte sind in Euro und ohne Mehrwertsteuer, Verpackung, Transportkosten und Versicherung angegeben. Der Verkäufer kann jederzeit geltende Preise und Tarife ohne Vorankündigung ändern. Dies gilt nicht für laufende Aufträge. Solche Änderungen können vorkommen, wenn sich die Preise für Rohstoffe, die Löhne, die Transportkosten und Versicherungspolicen usw. erhöhen.

4. LIEFERFRISTEN UND WARENRÜCKNAHME

Insofern nicht anders in der Auftragsbestätigung vereinbart, erfolgt die Lieferung der Produkte nach den Incoterms 2010: FCA (frei Frachtführer) Orbassano. Die Ware wird stets im Namen und auf Risiko des Käufers transportiert.
Die Lieferfristen verstehen sich als Richtzeiten. Im Fall von Verspätungen ist der Käufer nicht berechtigt, die Auflösung des Vertrags und Schadensersatz geltend zu machen.

5. EIGENTUMSVORBEHALT

Die gelieferten Produkte bleiben bis zur vollständigen Bezahlung des entsprechenden Preises Eigentum des Verkäufers.
Der Käufer ist berechtigt, die erworbenen Produkte oder neue Produkte, in welche die gelieferten Waren eingefügt werden, weiterzuveräußern, vorausgesetzt, dass alle Erträge in diesem Fall an den Verkäufer gehen, bis diese den Preis erreichen, den der Käufer dem Verkäufer für die Lieferung dieser Produkte schuldig ist.
Sollte der Käufer seiner Zahlungspflicht länger als 20 (Zwanzig) Arbeitstage nach Fälligkeit der Zahlung nicht nachkommen, verfällt dieses Recht auf Weiterveräußerung der Produkte. Diesbezüglich obliegt es dem Verkäufer, dem Käufer den Widerruf des Rechts auf Weiterveräußerung schriftlich mitzuteilen. Der Käufer muss jede notwendige Maßnahme zum Schutz der Produkte, die dem Eigentumsvorbehalt unterliegen, sowie alle Maßnahmen umsetzen, damit die Produkte des Verkäufers nicht mit denen anderer Lieferanten verwechselt werden. Der Käufer muss die Produkte des Verkäufers in abgegrenzten und leicht erkennbaren Bereichen aufbewahren.

6. HAFTUNG DES VERKÄUFERS UND BESCHRÄNKUNGEN

Der Verkäufer ist ausschließlich für die ordnungsgemäße Herstellung der gelieferten Produkte verantwortlich. Die gelieferten Produkte müssen die in der Auftragsbestätigung des Verkäufers vorgesehenen Merkmale aufweisen. Hingegen übernimmt der Verkäufer keinerlei Haftung für den eventuellen mangelhaften Betrieb der Maschinen oder Systeme, die mit den vom Verkäufer gelieferten Produkten realisiert worden sind.
Die Produkte müssen in angemessener Weise nur von zuständigen und qualifizierten Technikern verbunden sein und müssen nach den Bestimmungen der nationalen Vorschriften den Angaben des Fahrzeugs entsprechen.
In jedem Fall kann der Käufer keinen Schadensersatz für Profitausfall, Produktionsausfall, Verlust des Images und Stillstand des Kraftfahrzeugs geltend machen.
Die Haftung des Verkäufers beschränkt sich nur auf den Wert der gelieferten Ware unter Vorbehalt des Vorsatzes und des groben Verschuldens im Sinne des Gesetzes.

7. HÖHERE GEWALT

Sollte es dem Verkäufer unmöglich sein, den Vertrag aufgrund von höherer Gewalt oder von Ereignissen, die nicht von ihm zu vertreten sind, einzuhalten, dann werden die Fristen für die Ausführung der Lieferung automatisch um die Dauer der Ereignisse verlängert. Diesbezüglich sind rein beispielhaft ohne Anspruch auf Vollständigkeit als Gründe für höhere Gewalt anzusehen: Stromausfall, Mangel an Rohstoffen, Streiks, Maßnahmen der öffentlichen Verwaltung, Störungen im Straßenverkehr oder Produktionsstörungen.

8. REKLAMATIONEN und ANNAHME DER PRODUKTE

Alle Reklamationen in Bezug auf die Nichtkonformität der gelieferten Ware, Schäden durch den Transport oder eventuell fehlende Mengen gegenüber der bestellten Produktmenge müssen dem Verkäufer direkt und per Einschreiben mit Rückschein mitgeteilt werden. Diese Mitteilung muss bei offensichtlichen Mängeln innerhalb von 8 (acht) Tagen ab dem Lieferdatum und bei versteckten Mängeln innerhalb von 8 (acht) Tagen ab dem Datum, an dem diese entdeckt worden sind, und in jedem Fall innerhalb eines Monats nach Lieferung der Produkte erfolgen und eine ausführliche Beschreibung der Mängel enthalten. Mangels dieser Mitteilung werden die abgerechneten Beträge mit voller Rechtswirksamkeit als angenommen angesehen und können vom Käufer nicht mehr beanstandet werden.
Warenrücknahmen werden nicht angenommen, wenn diese nicht vorher vom Verkäufer genehmigt wurden.

9. ÜBEREINSTIMMUNG MIT DEN SPEZIFIKATIONEN UND GARANTIEBEDINGUNGEN

Der Verkäufer garantiert, dass die Produkte mit den technischen Spezifikationen übereinstimmen, die der Verkäufer in der Auftragsbestätigung für den Käufer angegeben hat. Die genannte Garantie gilt 2 (zwei) Jahre ab dem Datum der Lieferung der Produkte. Für die ersetzten Produkte oder Bestandteile gilt die Garantie ab dem Tag der Auswechslung.
Während der Garantiezeit verpflichtet sich der Verkäufer, die mangelhaften Produkte oder Teile davon innerhalb einer angemessenen Zeit wahlweise kostenlos zu reparieren oder zu ersetzen, wobei der Käufer dem Verkäufer diese Mängel mitzuteilen hat. Die Kosten und Risiken des Transports der mangelhaften Produkte an den Sitz des Verkäufers gehen zulasten des Käufers. Die ersetzten Produkte bleiben Eigentum des Verkäufers.
Die Garantie erlischt, wenn die Verwendung nicht mit dem bestimmungsgemäßen Gebrauch oder mit den in den Katalogen des Verkäufers vorgesehenen Gebrauch der Produkte übereinstimmt. Die Garantie erlischt ebenfalls, wenn die Produkte ohne die Genehmigung des Verkäufers verändert oder repariert wurden.

10. GEWÄHRLEISTUNG IN BEZUG AUF DIE ÜBEREINSTIMMUNG DER PRODUKTE MIT DEN EU-NORMEN

Der Verkäufer garantiert, dass die Produkte mit den eventuell anwendbaren Normen der Europäischen Union (EU) übereinstimmen.
Für die Übereinstimmung dieser Produkte mit Normen und Richtlinien, die im Land des Käufers gelten, sollte dieser seinen Sitz außerhalb der EU haben, oder allgemein die in jedem Land außerhalb der EU gelten, in dem die gelieferten Produkte verwendet werden, übernimmt der Verkäufer keine Garantie. Von der Garantie ausgeschlossen sind ausdrücklich die Normen über Sicherheit und Unfallverhütung.

11. VERTRAULICHKEIT UND DATENSCHUTZ

Dokumente jeder Art, die vom Verkäufer bereitgestellt werden, bleiben in dessen Besitz und dürfen nicht an Dritte weitergegeben oder vervielfältigt werden. Der Käufer verpflichtet sich, auch nach Vertragsende keine Geschäftsgeheimnisse und vertrauliche Informationen weiterzugeben, die ihm mitgeteilt wurden, oder von deren er im Lauf der Beziehungen mit dem Verkäufer Kenntnis erlangt hat.
Der Verkäufer erklärt hiermit, die vom Kunden angegebenen sensiblen Daten unter Einhaltung der Bestimmungen im italienischen Datenschutzkodex (Legislativdekret Nr. 196/03) zu behandeln.

12. AUFLÖSUNG DES VERTRAGS

Der Liefervertrag kann im Sinne von Art. 1456 des ital. ZGB („codice civile") durch die einfache schriftliche Erklärung des Verkäufers, dass er von dieser ausdrücklichen Aufhebungsklausel Gebrauch machen will, von Rechts wegen aufgehoben werden, wenn der Käufer:
- die fälligen Zahlungen unterlässt oder verspätet leistet;
- der Liquidation oder einem beliebigen Konkursverfahren unterzogen wird.

13. GEISTIGES EIGENTUM

Die Rechte am geistigen Eigentum in Bezug auf Projekte, Forschungen, Zeichnungen, Modelle und Produkte, die der Verkäufer realisiert oder die in seinem Namen und auf seine Rechnung realisiert werden, verbleiben beim Verkäufer. Die Marken, unter denen die Produkte verkauft werden, dürfen vom Käufer nur verwendet werden, um diese erkenntlich zu machen.

14. ANWENDBARES GESETZ UND MODALITÄTEN ZUR BEILEGUNG VON STREITIGKEITEN

Alle Verträge mit dem Verkäufer werden vom italienischen Gesetz geregelt. Alle Streitigkeiten werden der ausschließlichen Zuständigkeit des Gerichtssprengels in Turin zugewiesen.

Datum: _____ Stempel, Vor- und Zuname und Unterschrift des Käufers: _____

Der Käufer erklärt im Sinne der Art. 1341 und 1342 des ital. ZGB ("codice civile"), die in den folgenden Artikeln der allgemeinen Verkaufsbedingungen enthaltenen Bedingungen gelesen zu haben und diese ausnahmslos anzunehmen: Art. 3) Verrechnungsverbot, Art. 5) Eigentumsvorbehalt, Art. 6) Haftungsbeschränkung, Art. 8) Reklamationen und Annahme der Produkte, Art. 14) Modalitäten zur Beilegung von Streitigkeiten.

Datum: _____ Stempel, Vor- und Zuname und Unterschrift des Käufers: _____

CONDICIONES GENERALES DE VENTA

1. AMBITO DE APLICACIÓN Y EFICACIA

Todas las entregas de productos efectuadas por Facet S.r.l. (el "Vendedor") a un cliente (el "Comprador") se regirán por las presentes condiciones generales que prevalecerán sobre las condiciones de adquisición del Comprador, así como las condiciones particulares previstas en las licitaciones y/o confirmación de pedido del Vendedor. En caso de conflicto entre lo estipulado en las condiciones generales y en las condiciones particulares, prevalecerán estas últimas.
Los datos y las ilustraciones referidas a los productos resultantes de los catálogos o prospectos del Vendedor tienen carácter indicativo y no valor vinculante, salvo lo dispuesto expresamente en la confirmación del pedido por parte del vendedor y pueden ser sujetos a modificaciones de diseño y material sin previo aviso.
Los números originales (OE) indicados en los catálogos o en otros documentos sólo son mencionados para identificar las partes de repuesto.
El vendedor suministra únicamente los productos de su propia producción contraseñados con su propio código de articulo y no productos con los números OE.

2. FORMALIZACIÓN DEL CONTRATO

El contrato de suministro se perfecciona con la confirmación escrita del Vendedor de aceptación del pedido del Comprador. El Vendedor se reserva el derecho de no aceptar pedidos en el caso que hay una controversia con el cliente relativa a un pedido anterior

3. PRECIOS Y FORMAS DE PAGO

Salvo pacto en contrario, los pagos del precio deben ser efectuados por el Comprador en los términos y con la modalidad prevista en la confirmación del pedido en la dirección del Vendedor. Los pagos realizados por el Comprador a Corredores de Comercio y/o Agentes sin un poder legal específico no tendrán fuerza ejecutiva contra el Vendedor.
En caso de retraso en los pagos, el Comprador deberá abonar los intereses de demora iguales a los establecidos por el Banco Central Europeo en vigor en la fecha, más 7 (siete) puntos, reservándose en cada caso la facultad el Vendedor de pedir daños y perjuicios.
El Comprador no podrá, por ningún motivo, salvo autorización escrita, compensar o retener cantidades adeudadas al Vendedor, ni podrá suspender los pagos.
Los precios de los productos se entienden en Euros y no incluyen el IVA, embalaje, gastos de transporte o seguro. El Vendedor podrá modificar los precios y las tarifas en vigor en cada momento sin previo aviso, salvo en el caso de los pedidos en curso. Es decir, si se verifican recargos en las materias primas, mano de obra, en los transportes, en las primas de seguros, etc.

4. CONDICONES DE ENTREGA Y DEVOUCIONES

A menos que se disponga lo contrario en la confirmación del pedido, el suministro de los productos se entiende realizado conforme a la Incoterms 2010: FCA Orbassano. La mercancía viaja siempre por cuenta y riesgo del Comprador.
Los plazos de entrega se entienden indicativos y en caso de retraso, el Comprador no tiene derecho a solicitar la resolución del contrato y/o el resarcimiento de los daños.

5. RESERVA DE PROPIEDAD

Los productos suministrados permanecerán de propiedad del Vendedor hasta el pago total del precio.
El Comprador tendrá el derecho de vender los productos adquiridos, o nuevos productos en los que los productos suministrados por el Vendedor hayan sido incorporados, salvo que en este caso, todos los ingresos serán transferidos al Vendedor hasta el total del precio debido al Vendedor por el Comprador por el suministro de tales Productos.
Tal derecho de vender los productos decae si el Comprador no ha cumplido la obligación de pago durante un periodo de tiempo superior a 20 (veinte) días laborables desde la fecha límite. A tal fin, será potestad del Vendedor comunicar por escrito al Comprador la revocación del derecho a vender. El Comprador deberá tomar todas las medidas necesarias para la protección de los productos objeto de la reserva de propiedad, así como las medidas para no confundir los productos del Vendedor con los productos de otros proveedores y conservar los productos del Vendedor en espacios bien delimitados y fácilmente individualizables.

6. RESPONSABILIDAD DEL VENDEDOR Y LIMITACIONES

El Vendedor es exclusivamente responsable de la correcta producción de los productos suministrados, que deberán tener las características previstas en la confirmación del pedido por parte del Vendedor.
Sin embargo, el Vendedor no asume, ninguna responsabilidad por el eventual mal funcionamiento de equipos o sistemas realizados por el Comprador con los productos suministrados por el Vendedor.
Los productos deben ser instalados solamente por técnicos competentes y cualificados, en conformidad con las especificaciones del vehículo y cumpliendo con los requisitos de las normativas nacionales.
En cualquier caso, el Comprador no podrá reclamar el resarcimiento de los daños y perjuicios por el lucro cesante, pérdida de producción, daños de imagen o parada de vehiculo.
La responsabilidad del Vendedor es, por lo tanto limitada al valor de la mercancía suministrada, salvo dolo o culpa grave de conformidad con la ley.

7. LA FUERZA MAYOR

Si el Vendedor no puede cumplir el contrato por causa de fuerza mayor o cualquier circunstancia ajena a su voluntad, los plazos previstos para la ejecución de la oferta son automáticamente prorrogados por un período equivalente al de los efectos del evento de fuerza mayor. A tal fin, son consideradas causas de fuerza mayor, con fines explicativos y no exhaustivos: ausencia de energía o de materias primas, huelgas, medidas de la Administración Pública, obstáculos en la circulación, o en las actividades productivas.

8. RECLAMACIONES y ACEPTACIÓN DE LOS PRODUCTOS

Toda reclamación relativa a la no conformidad de las mercancías consignadas o por daños debidos al transporte o por eventuales faltas de cantidad respecto a los productos encargados debe ser comunicada por carta registrada con acuse de recibo dirigida directamente al vendedor en los 8 (ocho) días desde la fecha de entrega de los Productos, en el caso de vicios ocultos y dentro de los 8 (ocho) días desde el descubrimiento y dentro del mes siguiente de la entrega, con una exposición detallada de los hechos. En su defecto, los importes facturados se entenderán, a todos los efectos, aceptados y no cuestionables por el Comprador.
No se aceptan productos devueltos si no han sido previamente autorizados por escrito por el Vendedor.

9. CONFORMIDAD DE LAS ESPECIFICACIONES Y CONDICIONES DE GARANTÍA

El Vendedor garantiza que los productos serán conformes a las especificaciones técnicas declaradas por el Vendedor mismo al Comprador en la confirmación del pedido y dicha garantía tendrá validez de 2 (dos) años desde la fecha de la consigna de los productos y para los productos o componentes en sustitución, desde la fecha de sustitución.
Durante el periodo de garantía, el Vendedor al que el Comprador haya denunciado los defectos, se compromete, a su elección, dentro de unos términos razonables, a reparar o sustituir gratuitamente los productos o las partes de los mismos que hubieran resultado defectuosos. Los costes y los riesgos debidos al transporte de los productos defectuosos a la sede del Vendedor, son a cargo del Comprador. Los productos sostituidos quedan de propiedad del Vendedor.
La garantía no es válida en el caso de uso no conforme al destino final habitual de los productos o no prevista en los catálogos del vendedor o incluso si los productos han sido modificados o reparados sin la autorización del Vendedor.

10. GARANTÍA DE ADECUACIÓN DE LOS PRODUCTOS A LAS NORMAS UE

El Vendedor garantiza que los Productos serán conformes a las normas de la Unión Europea (UE) y pueden eventualmente ser aplicables.
No existe ninguna garantía del Vendedor en relación a la conformidad de estos Productos con las normas y regulaciones, fuera de las expresamente incluidas en las normas relativas a la seguridad y prevención de accidentes, en vigor en el país del Comprador, cuando este tenga su residencia fuera de la UE, o más en general, en cualquier nación que no pertenezca a la UE en la que los Productos suministrados vengan siendo utilizados.

11. CONFIDENCIALIDAD Y PROTECCIÓN DE DATOS

Los documentos de cualquier naturaleza facilitados por el Vendedor permanecerán de su propiedad y no podrán ser transferidos a terceros o reproducidos. El Comprador se compromete, incluso después de la finalización del contrato a no divulgar los secretos comerciales y las informaciones confidenciales que le hayan sido comunicadas o de las cuales tenga conocimiento en el transcurso de su relación con el Vendedor.
El Vendedor con la presente declara que usará los datos personales transferidos por el Cliente con el respeto a lo establecido en el Código de Privacidad Italiano (Decreto Legislativo n. 196/03)

12. RESOLUCIÓN DEL CONTRATO

El contrato de suministro podrá ser resuelto conforme a derecho según el art. 1456 C.C. por medio de declaración simple por escrito del Vendedor haciendo uso de la presente cláusula de rescisión si el Comprador:
- Omite o retrasa los pagos adeudados
- Se somete a liquidación o se encuentra sujeto a cualquier procedimiento concursal

13. PROPIEDAD INTELECTUAL

El Vendedor conserva la propiedad intelectual de los proyectos, de los estudios de los diseños, de los modelos y de los productos que realice o sean realizados en su nombre o por su cuenta. Las marcas bajo las cuales los productos son vendidos no pueden ser usadas por el Comprador salvo para identificarlos.

14. LEYES APLICABLES Y MODOS DE RESOLUCION DE LAS CONTROVERSIAS

Todos los contratos con el Vendedor serán sometidos a la legislación italiana. Cualquier controversia será resuelta por la jurisdicción exclusiva del Foro de Turín.
